

Recommendations approved by St Mary's PCC on June 16th 2022

1. The PCC adopts the carbon net zero plan, with the target to be net zero by 2025;
2. The PCC approves the trial of electric under pew heaters, panel heaters and heated seat pads this autumn and underwrites funding from the restoration fund up to £3,000;
3. The Zero Group continues to research EV charge points as a community benefit;
4. The PCC commits to budget for carbon offsetting for the gas we are currently using, from January 2023;
5. The PCC further commits to budget for offsetting the carbon which we can't reduce, with effect from January 2026, and commits to continue to look for carbon reductions;
6. The PCC continues to evaluate solar photovoltaic generation over the next 8 years.
